

ORDINANCE NO. 1609

AN ORDINANCE AMENDING SECTION 210-7 OF THE NATIONAL ELECTRICAL CODE, 1971 EDITION, AS ADOPTED BY ORDINANCE NO. 1409 OF THE CITY OF CHULA VISTA, CALIFORNIA

On November 29, 1973, John H. Stender, Assistant Secretary of Labor, deferred enforcement by OSHA of that portion of Section 210-7 of the National Electrical Code, 1971 Edition, with reference to Ground Fault Circuit Interrupters on construction sites. Ground Fault Circuit Interrupters presently approved are designed to interrupt electrical power if a ground fault current of 5 milliamperes or greater develops in the circuit of equipment being supplied by 15 and/or 20 ampere receptacles. 5 milliamperes is too low a value for application at construction sites and this results in "nuisance" tripping of the electrical power. This part of Section 210-7 of the National Electrical Code has not been enforced as enforcement would have curtailed 80% of our construction, therefore should be deleted from the ordinance until such time as OSHA repeals their deferment.

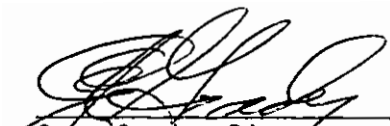

THE CITY COUNCIL OF THE CITY OF CHULA VISTA, CALIFORNIA DOES ORDAIN AS FOLLOWS:

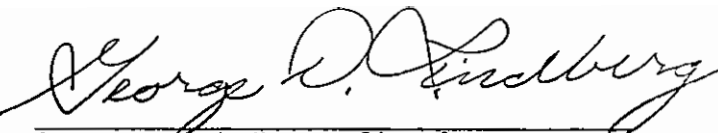

Section 1. That the last paragraph of Section 210-7 of the National Electrical Code, 1971 Edition, as adopted by Ordinance 1409 is hereby repealed.

Section 2. This Ordinance shall take effect and be in full force on the thirty-first day from and after its passage.

Presented by

Approved as to form by

Gene Grady, Director of Building and Housing

George D. Lindberg, City Attorney
