

Preface

This volume constitutes the first revision and codification of the general ordinances of the City of Chula Vista, California. It contains the Charter and such of the ordinances of a general and permanent nature passed prior to December 19, 1960 as were found desirable for retention, except those expressly saved from repeal by the Adopting Ordinance.

The ordinances were codified, edited and indexed by the Editorial Staff of Michie City Publications Company of Los Angeles under the supervision of Jesse D. Worley, James L. Jones and A. Gordon Colley.

The publishers wish to express their appreciation for the cooperation of all the city officials and employees during the preparation of this publication. Particular acknowledgment is due Mr. Manuel L. Kugler, City Attorney, for his assistance during the progress of the work.

A feature to which the attention of the user is directed is the arrangement of the chapters in alphabetical order. Attention is also directed to the analysis preceding each chapter, which in many instances will serve as an index within itself. The general index, carried at the end of the Code, has been carefully prepared, and should serve as an accurate medium for locating the individual sections of law within the Code. In the footnotes appearing throughout the Code will be found references to the Charter and the applicable state law. These notes also contain cross references to other and related provisions in the City Code itself. By reference to the historical citations, appearing at the end of each section, the user will be able to ascertain the ordinance from which the present section has been derived.

It is a recognized fact that if any city code is to accomplish its intended purpose it must be kept up to date by means of an adequate supplemental service. Accordingly, the publishers point out the advisability and necessity of keeping this Code current.

The new City Code is presented to the officials and citizens of the City of Chula Vista in the belief that it will merit their approval.
